### iPad at a glance.

#### The best way to experience the web, email, photos, and video.

Page through websites, write an email, flick through photos, or watch a movie with just the touch of a finger.

#### A design that's thin, light, and brilliant.

iPad has a large 9.7-inch, high-resolution LED-backlit IPS display and incredible Multi-Touch capability. And an amazingly powerful Apple-designed chip. Yet it's thin and light enough to take anywhere.

#### Thousands of apps made just for iPad. With more coming every day.

Right now you can discover over a thousand apps on the App Store made just for iPad - with more coming every day. And if that's not enough, you can also run almost 150,000 iPhone apps.
